

COMPUTER SOCIETY OF INDIA, VIT PUNE

ROLES, RESPONSIBILITIES
AND REQUIREMENTS
2026-27

CSI ORGANISING COMMITTEE INTERVIEWS 2026-27

TECHNICAL DOMAINS

- AI/ML
- App Development
- Blockchain
- Web Development
- DSA and Competitive Programming

CREATIVE DOMAINS

- Aesthetics
- Multimedia
- Social Media

ADMINISTRATIVE DOMAINS

- Corporate Relations
- Database
- Finance
- Operations and Venue
- Publicity
- Sponsorship

Description:

The AI/ML domain leverages artificial intelligence and machine learning technologies. This can involve developing predictive models, automating tasks, and analyzing data to provide insights and improve decision-making.

Skills Required:

1. Basic understanding of linear algebra probability and Statistics
2. Understanding of recently emerging trends in AI and ML such as transformer models, LLM, NLP, explainable AI, federated learning, and reinforcement learning
3. Supervised and Unsupervised machine learning: familiarity with machine learning algorithms such as decision tree random forest logistic regression linear regression k means clustering hierarchical clustering
4. Familiarity with the following concepts: Exploratory data analysis dimension reduction
5. Familiarity with the following AI concepts generative transformers neural networks GPT infrastructure chatbots and the ability to use them in a project
6. Using python data manipulation in Python. python library such as NumPy, SciPy, matplotlib, scikit-learn and pandas

APP DEVELOPMENT

Description:

The App Development domain focuses on creating and maintaining mobile and web applications. This includes designing user-friendly interfaces, implementing features that enhance member engagement, and ensuring the apps run smoothly across different devices.

Skills Required:

1. Familiarity with frameworks such as Flutter, React Native, or native development using Swift for iOS and Kotlin/Java for Android.
2. Familiarity with design tools like Figma, Sketch, or Adobe XD.
3. Proficiency in working with RESTful APIs, asynchronous functions, callbacks, and JSON data.
4. Knowledge of HTTP requests, web sockets, headers, cookies, sessions, and authentication methods such as OAuth and JWT.
5. Understanding of mobile database solutions, including both SQL (e.g., SQLite) and NoSQL (e.g., Firebase, Realm).
6. Familiarity with Git and GitHub for version control.
7. Basic knowledge of cloud services such as AWS, Firebase, or Azure for app hosting and backend support.

BLOCKCHAIN

Description:

This domain explores and implements blockchain technology solutions. Responsibilities may include developing decentralized applications, creating smart contracts, and using blockchain for secure and transparent record-keeping or other innovative applications.

Skills Required:

1. Understanding of Basic Concepts: Blockchain, Block, Hash, Decentralization, Consensus Mechanism (Proof of Stake, Proof of Work)
2. Understanding cryptography, public key, private key, mining, tokens
3. Familiarity with decentralised applications (dApps) and ability to implement small projects like Smart Contracts
4. Understanding ledger and cryptocurrency
5. Understanding of Solidity, Ethereum
6. Basic implementation of Frontend for Blockchain projects using React, Angular or Vue

WEB DEVELOPMENT

Description:

Web Development is responsible for creating and maintaining the club's website and web-based applications. This includes designing the website's layout, implementing features, ensuring optimal performance, and providing a seamless user experience. Web Development ensures the club's online presence is professional, functional, and up-to-date.

Skills Required:

1. Familiarity with JavaScript, NodeJS, ExpressJS and any one of the following frontend frameworks: Angular, Vue or React.
2. Basic understanding of CSS layouts, Component lifecycle functions, routing, protected routes and any one of the following frontend libraries: Tailwind, Bootstrap
3. Familiarity with APIs, asynchronous functions, callbacks, JSON data, parsing, CORS
4. Understanding of http requests, web socket, headers, cookies, sessions, authentication, JWT, Firebase.
5. Understanding of SQL and NoSQL databases, using MongoDB and Postgres in a website.
6. Ability to use Git, GitHub in a team.
7. Basic knowledge of hosting websites: AWS EC2, Azure.

DSA AND COMPETITIVE PROGRAMMING

Description:

The DSA & Competitive Programming domain is focused on mastering the core principles of computer science through rigorous problem-solving. This domain is dedicated to building strong **algorithmic thinking**, understanding **data structures** deeply, and writing highly **efficient and optimized code**. Members will train for and participate in various coding contests, sharpening their skills for technical interviews and challenging software development roles.

Skills Required:

1. Strong proficiency in a programming language commonly used in competitive programming, such as **C++**, **Java**, or **Python**
2. Understanding of common Data Structures (e.g., arrays, lists, trees, graphs) and when to use them.
3. Familiarity with core Algorithmic Concepts like searching, sorting, and recursion
4. The ability to think about code performance and efficiency (basic understanding of Time and Space Complexity).
5. A logical mindset and a passion for solving puzzles and challenges.
6. Familiarity with solving problems on online coding platforms like LeetCode, HackerRank, Codeforces, or GeeksforGeeks.

AESTHETICS

Description:

Aesthetics focuses on the visual and thematic elements of the club's activities and events. Responsibilities include designing event layouts, decorations, and promotional materials, ensuring a cohesive and attractive visual identity.

Roles and Responsibilities:

1. Art Form Creation:

- Design and create visual art forms and decorations to enhance the aesthetic appeal of event spaces.
- Collaborate with event organizers to ensure art forms align with the theme and purpose of the event.

2. Art Installation Oversight:

- Supervise the installation and placement of art forms in designated areas such as stage, auditorium, and other parts of the college.
- Maintain and manage art displays during the event, ensuring they remain intact and visually appealing.

Requirements:

- Creative flair and artistic abilities in various mediums (painting, sculpture, etc.).
- Ability to work under pressure and meet deadlines.
- Knowledge of design principles and aesthetics to create visually impactful displays.

MULTIMEDIA

Description:

The Multimedia domain manages the production and distribution of audio, video, and digital content related to the club's activities. This includes recording events, producing promotional videos, and creating digital graphics. Multimedia works to enhance the club's online presence and engage a broader audience through various digital formats.

Roles and Responsibilities:

- Develop multimedia content to promote club events and activities. Ensure content aligns with club branding and enhances the club's image.
- Manage and update the club's social media platforms consistently. Optimize content strategy using social media trends and analytics.

Requirements:

- Proficiency in graphic design and video editing software. Familiarity with social media management tools and platforms.
- Ability to create unique and engaging multimedia content. Knowledge of the latest trends in multimedia, design, and social media.
- Ability to manage multiple projects and meet deadlines. Strong attention to detail and proactive problem-solving skills.

SOCIAL MEDIA

Description:

The Social Media domain serves as the primary voice and communication channel for the club. This domain is responsible for managing the club's online presence, building a vibrant digital community, and driving engagement across various social media platforms. It focuses on strategic content creation, audience interaction, and promoting the club's brand and activities to the wider student community.

Roles and Responsibilities:

- Actively manage the club's social media accounts (e.g., Instagram, LinkedIn, X, etc.), including posting updates, creating stories, and responding to comments and messages.
- Promote club events, workshops, and achievements through targeted campaigns to maximize reach and participation. Track and analyze social media metrics to report on performance and refine future strategies.

Requirements:

- Excellent understanding of major social media platforms, their features, and best practices. Strong copywriting and written communication skills are essential.
- A creative mindset with the ability to generate engaging and relevant content ideas. Keen awareness of current social media trends and viral content.
- Highly organized with strong time-management skills to handle a posting schedule effectively. A collaborative spirit to work closely with the Multimedia and other domains.

CORPORATE RELATIONS

Description:

Corporate Relations focuses on building and maintaining relationships with external entities, including companies, speakers, and other clubs. This involves seeking partnerships, sponsorships, and collaborations that can provide financial support, resources, or expertise. The domain ensures mutually beneficial relationships that help the club achieve its goals.

Roles and Responsibilities:

- Identify potential speakers and jury members based on relevance and expertise.
- Extend formal invitations and negotiate terms of engagement.
- Research potential speakers' and jury members' backgrounds and interests.
- Craft tailored pitches highlighting the benefits of participation.
- Coordinate logistics such as scheduling, travel arrangements, and honorariums.
- Facilitate communication between speakers, jury members, and event organizers.

Requirements:

- Proficiency in developing persuasive pitches and proposals.
- Previous experience in event management, corporate relations, or external affairs is advantageous.
- Attention to detail and accuracy in handling logistics and communications.
- Flexibility to adapt to changing priorities and work schedules as required.

DATABASE

Description:

This domain handles the management and maintenance of the club's data. Responsibilities include maintaining event attendance logs, and contact lists. Database ensures data accuracy, security, and accessibility, providing valuable insights for decision-making and strategic planning.

Roles and Responsibilities:

- Maintain and update the membership database with accurate information.
- Ensure data integrity and completeness.
- Design user-friendly forms for event registration and feedback.
- Track and analyze event ticket sales.
- Design and distribute custom-styled emails to members.
- Segment email lists for targeted communication.

Requirements:

- Proficiency in database management systems (e.g., MySQL, Excel).
- Previous experience in database management or data analysis roles is advantageous.
- Attention to detail and accuracy in data entry and reporting.
- Knowledge of Google Forms or similar tools for data collection.
- Experience with email marketing platforms is a plus.

FINANCE

Description:

The Finance domain is responsible for managing the club's financial resources. This includes budgeting, accounting, financial reporting. Finance oversees all monetary transactions and works to ensure the club operates within its means while pursuing its objectives.

Roles and Responsibilities:

- Oversee the club's financial activities, ensuring all expenses are planned and accounted for.
- Create and manage the event's budget, ensuring funds are allocated appropriately.
- Develop and implement fundraising strategies to support the club's activities.
- Reimburse members for approved expenses in a timely manner.

Requirements:

- **Organizational Skills:** Excellent organizational skills to maintain accurate financial records and manage multiple financial activities.
- **Analytical Skills:** Ability to analyze financial data and provide insights for decision-making.
- **Experience:** Prior experience in finance or accounting roles is preferred.

OPERATIONS AND VENUE

Description:

Operations and Venue domain handles the logistical aspects of organizing events and managing venues. Responsibilities include taking permissions and preparing venues, coordinating with other members, ensuring all necessary requirements and materials are available, and overseeing the smooth execution of events. Operations and Venue ensure that all physical aspects of events run seamlessly and efficiently.

Roles and Responsibilities:

1. Event Logistics Management:

- Coordinate and oversee all logistical aspects required for events, including setup, teardown, and maintenance of event spaces.
- Obtain necessary permissions from college authorities for using various locations on campus during events.

2. Operations Coordination:

- Ensure smooth operation of event activities by coordinating with volunteers and other team members.
- Responsible for setting up signage, banners, and other visual aids necessary for the event.

Requirements:

- Organizational skills and attention to detail.
- Ability to manage time effectively and prioritize tasks.
- Strong communication skills to liaise with college authorities, volunteers, and event participants.

PUBLICITY

Description:

The Publicity domain is responsible for promoting the club and its events to attract participants and maintain a positive public image. This involves marketing, managing social media accounts, and publicising club events. Publicity aims to maximize visibility and engagement through various communication channels.

Roles and Responsibilities:

- Guide and Mentor: Lead a team of coordinators, offering constructive feedback and sharpening their skills.
- Teach and Improve: Conduct mock pitches and provide assignments from time to time, ensuring continuous skill enhancement.
- Advertise and drive awareness for our events and elevate the club's reputation.
- Create comprehensive publicity plans for each event.
- Foster and maintain strong connections with students and faculty members to foster support and enhance event participation.

Requirements:

- Communication: Strong verbal and written communication skills.
- Presentation: Excellent presentation skills.
- Networking: Good college network to expand reach and engagement.
- Marketing and Advertising: Ability to identify the target audience and promote events. Understanding the needs of our target audience.

SPONSORSHIP

Description:

Sponsorship focuses on securing financial and in-kind support from sponsors. This involves identifying potential sponsors, creating sponsorship proposals, negotiating agreements, and maintaining relationships with sponsors. The domain ensures that sponsors receive appropriate recognition and benefits in return for their support.

Roles and Responsibilities:

- Lead a team of sponsorship coordinators, offering guidance and support.
- Prepare and deliver compelling sponsorship proposals and presentations.
- Negotiate terms and agreements to ensure mutually beneficial partnerships.
- Reach out to companies, organizations, and individuals to secure sponsorship deals.
- Work with the club's treasurer to ensure financial transparency and accountability.

Requirements:

- Communication: Strong verbal and written communication skills.
- Presentation: Excellent presentation skills.
- Networking: Strong networking skills to build and maintain relationships with potential sponsors.
- Sales and Negotiation: Proven ability to pitch ideas and negotiate deals.
